QUICK START GUIDE - CASSETTE TOILET C400 SERIES

PREPARE FOR USE

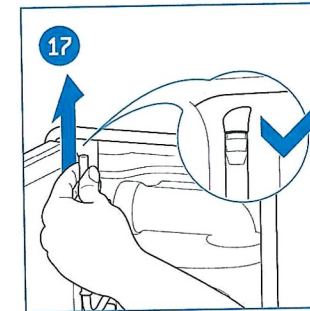

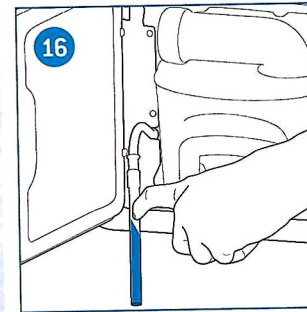

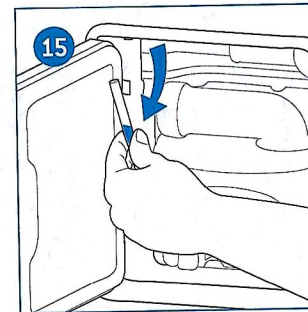

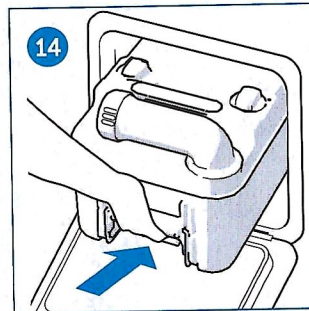

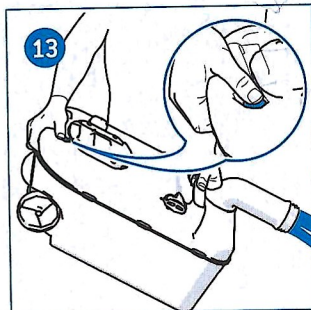

* only applicable for the C402-C and C402-X

USE OF TOILET

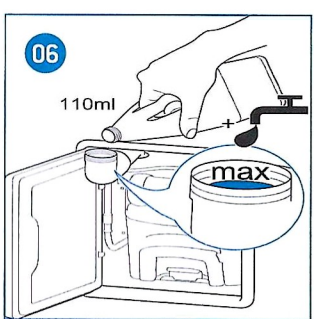

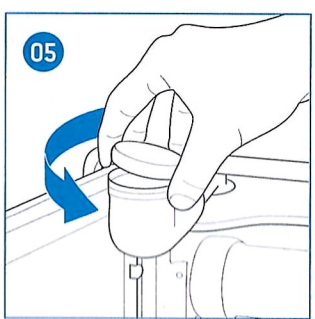

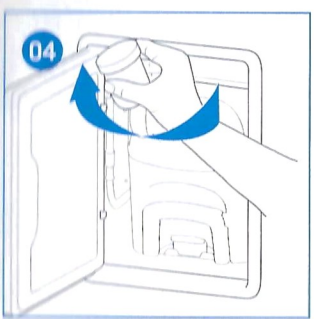

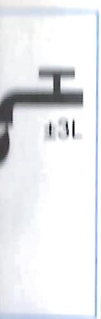

EMPTY WASTE-HOLDING TANK

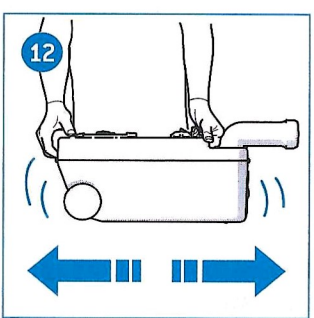

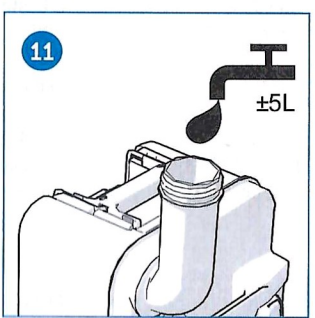

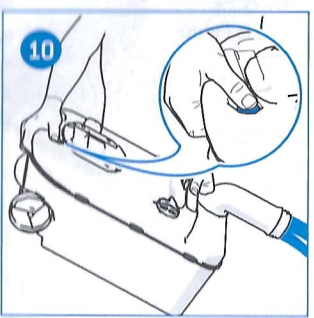

EMPTY FLUSH-WATER TANK

* only applicable for the C402-C and C402-X

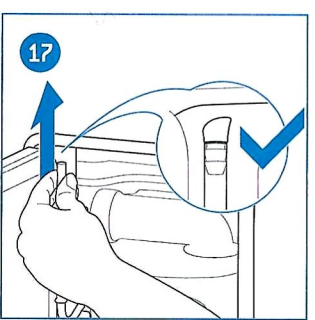

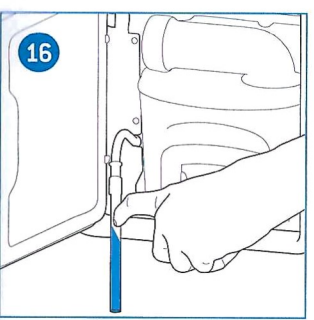

* only applicable for the C402-C and C402-X

WASTE TANK

WASTE TANK

C402-C and C402-X

IMPORTANT WARNINGS

- ⚠ Never add toilet additives directly via the valve blade or via the toilet bowl as this could damage the lip seal of the waste-holding tank. Only fill the waste-holding tank via the pour out spout.
- ⚠ Never use force if you cannot get the waste-holding tank back into place easily. If blockage occurs, always check if the blade handle is in the closed position.
- ⚠ The toilet can withstand a maximum load of 120kg. Make sure you do not overload the toilet.
- ⚠ To prevent water damage to your caravan or motor home, do not travel with water in the toilet bowl or with a waste-holding tank that is more than 3/4 full. A flush-water tank should not be more than half-full when travelling.

- ⚠ Do not leave water in the toilet bowl if the toilet is not being used. This does not help to reduce unpleasant smells and only leads to flooding.
- ⚠ Never use household cleaners (i.e. liquid bleach) to clean your toilet as these may cause permanent damage to the seals and other toilet components. We advise to use Thetford maintenance products only. Also clean the bowl with a soft brush to prevent scratches.
- ⚠ Never use Vaseline or vegetable oil to lubricate the seals as this may cause leakage to your waste-holding tank.
